**ANNOUNCEMENTS**

---

The mission of the month for January is Mujila Falls Agriculture Research Center in Zambia. Addressing hunger and poverty with sustainable agriculture and leadership training in extreme North West Zambia is their focus. There they are working with the Lunda people to increase protein, minerals and vitamins in the diet to reduce the high infant mortality rates and the low life expectancy. They are also working to increase family incomes by becoming more effective and efficient farmers. The long-term impact is to help to make the Lunda farmers and their families competitive in agriculture pursuits that are favored by the high rainfall and abundant land that is available for them. These include milk, fruit, and meat production, gardening, and field crops. As their incomes improve, their standard of living will improve and they can better afford the costs of education.

Please make checks payable to "Reynolds Church" with “Zambia” or “M.O.M.” in the memo line and drop your donation any Sunday or mail to Penny Bennett.

Thank you. Missions Team
